Cauri Charts

PRESS RELEASE · OCTOBER 2026

Cauri Charts launches its Official Distinctions: every month, the Top 5 of every West African chart honoured

Cauri Charts, the reference for West African music, introduces a numbered distinction for artists who reach the Top 5 of its monthly charts. Verifiable proof of their success, based on listening figures, not on a jury.

How it works

Every month, the top five of the West Africa monthly chart and the top five of each of the 16 countries covered receive an Official Cauri Charts Distinction. A song is honoured only once per chart, which keeps every distinction rare.

A collector's record

Each distinction carries a unique number (No. 0001, No. 0002…) and a barcode. It speaks the language of the chart: this month's rank, last month's rank, peak position and months on the chart. Month after month, these numbers build the archive of West African music's successes.

What the artist receives

A recognition PDF with two objects: the framed plaque (song artwork, Cauri vinyl, chart line, numbered engraved plate) and the acrylic block with the Cauri medallion, plus a certificate. Also a digital card to share and an official page on caurichartscom that serves as proof for press, promoters and partners.

A chart, not a jury

Cauri Charts rankings are calculated every week from streaming and video figures, using a public formula. Suspicious numbers are reviewed before publication and no one can move a song by hand. The method is published at caurichartscom/methodologie.

Timeline

The first distinctions will be awarded in early November 2026, for the October chart.

> **"An artist who reaches the Top 5 earned that place with their fans. The distinction gives them proof they can show, share and keep."**
>
> The Cauri Charts team
